B — Stack Questions: Combo Bonus

1. Did you attempt multi-Champion combos? How many succeeded?

Attempted: _____ times. Succeeded: _____ times.

2. What blocked the failed attempts?

3. Did the combo bonus feel like a meaningful reward for coordination?

Very rewarding — Somewhat — Neutral — Barely noticeable — Never triggered

When it triggered, was that something you had planned in advance — or did it happen more by coincidence?

Planned — Bit of both — Coincidence

4. Did you change how you positioned Champions because of the combo bonus?

Yes, significantly — Somewhat — Not really — No

How?

5. Did organic cross-category combos (e.g. Move skill → Strike skill on same target) still happen — or did the Strike+Strike bonus crowd them out?

Cross-category combos happened often — Sometimes — Rarely — Never

Examples:

6. Did the combo bonus make any skill or combination feel broken?

No — Maybe — Yes

Which?

C — Systems & Overall Feel

7. **Skill Drafting:** Did the draft feel fair and engaging? Clear plan, or just picked what seemed good?
Did you draft with specific skill pairings in mind — thinking about how skills could work together — or did you evaluate each skill individually for what it does on its own?
8. **Turn flow:** Did Move Slots and Skill Slots feel intuitive to manage together?
Very intuitive — Mostly yes — Sometimes confusing — Often confusing
9. **Skills — balance:** Any skill that felt too strong or too weak? Best combo you pulled off?
10. **Must-pick skills:** Did any skill feel like skipping it would always be a mistake?
Yes: _____ No
11. **Bodyguard Rule:** Did it trigger? Did you reposition Guards because of it?
Triggered _____ times. Repositioned Guards: Yes / No / Sometimes
When you repositioned Guards, was it mainly to protect a piece from being attacked — or to open up a line of sight for a skill? Or both?

12. Injured Champions: When a Champion was Injured, did it feel meaningfully weaker — or basically fine until killed?

Clearly weaker — Slightly weaker — Barely noticeable — Not different at all

13. Armor: Did either player stack Armor heavily? Did it feel well-balanced or did it slow the game?

Slowed game noticeably — Slightly extended — Well balanced — Armor rarely mattered

Did tracking and managing Armor take up a noticeable part of your mental focus — time you might otherwise have spent planning skill combos?

Yes, a lot — Somewhat — Not really — No

14. Rune spending: Always wanting more, or sometimes nothing worth spending on?

Always wanted more — Balanced — Sometimes nothing to spend on — Often sat on Runes

15. Favourite moment:

16. Opponent's game: Did you feel like you and your opponent were both solving a similar kind of puzzle — figuring out the same game from opposite sides? Or more of a direct “stop them from winning” contest?

Same puzzle — Bit of both — Direct contest — Hard to say

17. Most confusing or frustrating rule or moment:

Game length: 1 (way too short) — 2 (a bit short) — 3 (just right) — 4 (a bit long) — 5 (way too long)

Combat feel vs Playtest 2: Much worse — Worse — Same — Better — Much better

Overall enjoyment: 1 — 2 — 3 — 4 — 5
